MORE OF THE REBOUND.

Foom the Troy Times, Aug. 22. The Nashville Bulletin has come out second best in the controversy it voluntarily got into with Col. Burch. The Bulletin made broad assertions which had no foundation in fact, accusing Mr. Hobbs, former Comptroller, of sellin out his office to Col. Burch. This accusation brought a lette: from both of the gertlemen named, and between the two they entirely demolished the Bulletin, and prove to the satisfaction of all that Mr. Hobbs never had any idea of selling his office to Col. Burch, or any one else, and that Col. Burch never had the remotest idea of buying, or attempting to buy the Comptroller's office; consequently the Bulletin is left floundering high and dry on the sandy beach of apparent falsehood From the Trenton Gazette, Aug. 23.

The vile wretches who have sought to injure the good name and fair fame of Col. John C. Burch in connection with the Comptrollership, must hide their heads in shame. Cel. Burch has been vindicated, and has put under his feet t'e foul calumnies and detractions of his enemies. No one believed them from the first, but his the cards of Gov. Brown and ex Comptroller Hobbs put a quietus upon the base fabrication of a bargain and sale of the Comptroller's office. Col. Burch is an incorruptible gentleman, and his good name is above calumny and detraction. He brings to the office of Comptroller integrity. financial ability and a knowledge of the laws bearing upon his office, and his official acts must redound to the interest of the

From the Brownsville States, Aug. 23. Nashville, as a matter of course, has a postoffice. It is twofold in its character. It has an ostensible object, which is the delivery and distribusion of the public mail. It has another object, which is to become the a roog-bold and out-post of Radical power in Tennessee, and a sort of general hospital magazine and depot for decayed pensioners on the bounty of that party, and a place to resort for campaign supplies, and stimulus, in the enemies' territory. It would be strange indeed, if this postoflice did not, with its greasy drippings from the public table, create a clique. It would be stranger still, if the clique did not desire and possess an organ like the Nashville Bulletin. Like so many hungry Lazaruses, they swarm around the gates of the administration Rich Man; show to the sickened public, sores ulcers, bruises, con usions and moral prostration, i curred in a long, uncertain and painful tramp as pilgrim carpet-baggers in behalf of private plunder and the public administration. The postmaster at Nashville is their regitimate chieftain. He is a carpetbagger simon pure. He was the carpet-bag Representative from that district, but was defeated, and was given the postoffice for supposed a rvice to the party. He has gathered around him the broken remnants of his friends, and the Nashville postoffice is cons quently the carpet-bag beehive. The Nashville Bulletin is the natural and proper organ of this collection of political Bedouius, and from their tastness, through it, they make inroads and forays upon the character of some of the noblest and purest public

men of the State. The Bulletin is a singular sheet. It is sui generis, and has no likeness or similitude on this earth, or elsewhere. It also has a remarkably bad memory, and does not keep in wholesome recollection some painful transactions in the past, and while seeking to fling filth on the ski ts of its honest neighbors, has forgotten that its own have ong trailed in the mire. A few years ago it assayed to attack the character of one of the best men the State ever produced, Gov. Neill S. Brown, a man of noble, generous humanitarian instincts, with a soul too broad and genial to harbor malice, and a nature as pure, courteous and chivairous as a mailed knight of the Holy Sepulchie. The instautape us chastisement that followed on the heels of that malicious assault should have carried with it a recollection sufficient to have tamed the venom of a viper. But it did not. From its den, hissing, and darting its forked tongue, and spreading its spotted and slimy body, the Nashville Bulletin has struck again, and as before, it has dashed its poisonous mouth against the granite foundation of the good names of two public men well and favorably known in Tennessee for genius, beroism and patriotism, long before the editor of the Bulletin packed his carpet-bag and started on his a iventures, and before his appearance in

It was unnecessary for Col. Burch or Gov. Brown to have published explanatory letters in the public journals, in reference to the charge made by the Bulletin in regard to the Comptroller's office. No man credited the slander, and silent contempt would have been its fit and proper answer.

THE ANTI-FUNDING CLOVEN FOOT SHOWING ITSELF.

From the Dyersburg Progress, Aug. 21. The Nashville Bulletin has a cock and bull story to the effect that Hobbs sold out the office of Comptroller of Tennessee for gotten up by the anti-funders to introduce pernatorial canvass for the purpose, if possible, of defeating every candidate who favors funding. This is well enough to talk about now, but ere the canvass has fully opened the anti-funders will have wisely perceived that the introduction of the funding measure into the State canvase will be too uppopular for them to manage well. A very large majority of the peop'e in the State are heartily in favor of funding, and the funding and assessment bills, not long since so convenient to the unstable papers of the State to harp unon, will be the toughest measures in the canvass to wage a war against. Defeat necessarily visits the candidate who advocates the anti-funding bosh, and they will be slow

to mention the matter. By a recent purchase, the proprietors of the London Times have acquired the whole of the Printing-House Square. it cost about \$50 the superficial foot, or about onehalf what has recently been paid for land on Nassau street in New York, adjoining

Raising the Chost of Mrs. Surratt. WASHINGTON, Aug. 26.—Judge Advo-cate General Holt publishes in the Chroni-cle to-day a statement defending himself from charges that he, when presenting the record of the trial of Mrs. Surratt to Presi-dent Johnson, withheld from him a petition signed by five members of the court recom-mending, in consideration of her age and mending, in consideration of her age and sex, commutation of her death sentence to imprisonment for life. The communication embraces a letter from Judge Holt to Secretary Belimap denying in tolo the assertions referred to, and offering as proofs of his innoceance letters from Judge Bingham, Ex-Attorney General Speed, Hon. James Harlan, Reverend Dr. Butler, pastor of St. Paul's Church and many others, all of which are to the effect that the record of trial and the petition in favor of Mrs. Surratt were in the President's office before the execution of the conspirators. Judge Bingham's etter, dated Feb. 17, 1873, states that having drawn up the petition on behalf of Mrs. Surratt, and having after her execution heard the report having after her execution heard the report that it had been withheld from the President, he called on the Secretary of State and War, Seward and Stanton, and was assured by them that communication had been before the President and been duly considered by him and his advisers before the death sentence upon Mrs. Surratt had been approved and that the Fresident and

cabinet upon such consultation were a unit in denying the prayer of the petition. The Yellowstone. Gold was lower in New York yesterday,

The Monopoly Party in California. Special to the Louisville Courier-Journal. WASHINGTON, Aug. 25 .- Well informed persons just arrived from California speak very confidently of the defeat of the Central Pacific Railroad and Monopoly party in that State. The Democratic candidates for the Legislature are nearly all anti railroad men, and it is thought that in the northern part of the State they will generally be elected. In some of the strong Republican counties the anti-railroad ticket, composed equally of Republicans and Democrats, will sweep the field. No doubt is entertained of San Francisco county, going against the railroad monopolists, if the opposition there can be united on one legislative ticket. The feeling in the State is so strong as in the State is so strong as to override all the customary arts of corruption by the railroad, and it is believed that either Senator Casserly or Gov. Booth will be elected United States Senator, with the chances in favor of the former. Both are strong in their opposition to the railroad dynasty. The election comes off early in September, A Black Men's Party.

The National Republican of to-day gives an account of the formation of a black men's party, organized under the name of the "Equal Rights League," The organization is secret, and all persons receiving the support of the League are obligated to vote for and sustain any and all measures proposed in the increst of negroes. The organization is said to be a branch of one in Pennsylvania, and to have been organized here by a darkey professor of Howard University, named Gruner. The National Republican gives the names of a number of those who are affiliated with the order, embracing many office holders under both the city and National Administration and a good many influential Radicais. It is charged that the new organization intends to contest the field this fall with the regular Republican nominees, when they may fail to obtain nominations for their own set. The new movement is gotten up without the consent of the ring authorities, and is a source of deep grief to the faithful. The President's organ denonnces it with much bit erness. But, as this city government has been essentially a black man's government for some years, the new league cannot well make matters worse, save by forcing negroes into the public schools of the whites and thus breaking up the school system.

The Transportation investigation. Senator Windam's Committee on Transportation will meet in New York on the 10th of September next. After a brief session they will exam ne the various routes of water communication proposed for the North, and will next visit the line of the James river and Kanawha canal, in Virginia. The committee has already gathered up a large mass of valuable statistics bear-

ing on the question. Out of seventy-four Senators of the last Congress eight have still their back pay standing to their credit; and out of 252 members and delegates five have still their back pay undrawn.

THE BAILROADS.

A Reduced Freight Tariff. NEW YORK, Aug. 26 .- Competition between the trunk lines for Western freight continues, and further general reductions in the tariffs by the Erie, New York Central and Pennsylvania Central, have just been adopted. The list of stations, with the reductions and rew rates per hundred weight for first-class general merchandise, which includes dry goods, boots and shoes, readymade clothing, etc., embrace: New York to Cincinnati reduced from 70 to 87; to Indianapolis, from 51 to 38; to Louisville, Ky., from 86 to 49; to Nashville, Tenn., f.om 110 to 78; to Memphis, Tenn., from 135 to 98; to St. Louis, Mo., from 97 to 55.

Several of the outside railroad ticket offices have recently made considerable reduction in prices of tickets to the principal points in the West. The fare to Cleveland is thus reduced from \$14 25 to \$12 50; to Chicago from \$25 to \$19 50; and to Cincinnati from the South \$18. None of the regular Broadway offices have been authorized to make the reduction but they will probably be compelled to come down to the cheap rates or lose business.

Butler opens the Campaign. Woncester, Aug. 26 .- Gen. Butler opened the gubernatorial campaign to-night by a speech in Mechanics' Hall, which was crowded. When Butler appeared upon the platform three cheers were feebly given and a volley of hisses, but his speech was at-tentively listened to and the effective portions applauded. After two hours of mingled sarcasm and statistics well woven in his own defence, the General closed, without interruption from any source.

His speech was largely devoted to his per-sonal controversy with Hoar and the Wilson committee. His remarks in reference to the back pay bill were merely a repeti-tion of statements published in his letter a few days ago, but he made this propositioe: If his colleagues, past and present, Hoar, Baldwin and the rest, would return all back pay they received he would do the same. He spoke insultingly of the press of the country that had set up a howl about the salary grab, and referred in terms the reverse of complimentary to some of the newspaper correspondents speaking of the prohibitory law, the General said if he had the power it should be enforced everywhere, to great and small alike, so that the people would be able to ascertain just what sort of a law it was; if good he would sustain it; if not, well give us another and better one. The Goodrich Mystery. NEW York, Aug. 26 .- Some one who affects to know gives this story in connec-tion with the Goodrich murder: Kate Stoddard, when she was known by her true name, Betsey King, went to school where there were four young Spaniards, and one of them was called Roscoe. She was attached to the young man and before she disappeared from her parents' abode she was regarded as his betrothed. She is said to have r newed this acquaintance afterward n New York, and this too at the time when Charles Goodrich appeared upon the scene. This Rescoe is probably the one to whom Lucette Myers points as the one who killed Goodrich for robbing him of the affections of Kate Stoddard.

830,000 Worth of Diamonds for His Own Use.

NEW YORK, Aug. 26 .- N. L. Lancaster of Chicago, returning there for the benefit of his health, arrived from Europe Saturday, having with him thirty thousand dollars' worth of diamonds, obtained in the gold fields of South Africa. On landing at the pier, custom officer Singleton took from Lancaster a small satchel containing the diamonds and declared them seized, alleging that Lancaster denied having dutiable goods. The latter gentleman, however, asserts that he told the inspector he had diamonds and accounted for their possession by saying he had found some and purchase 1 others, in South Africa. He also claims that there is no duty on uncut ciamonds, and denies that he made any attempt at concealment, having displayed hem among his fellow passengers and refused offers of purchase, desiring them for his own use. The rebels were guilty in many instances of shocking barbarities, and when close pressed many of them committed hari-kari. A gunpow der explosion at Osaka killed many.

Antwerp, Aug. 26.—There was a great conflagration here last night. The lightning set fire to one of the largest warehouses which, with the surrounding buildings, were in flames, and the entire block destroyed. The fire was still burning at 10 o'clock this morning.

The fire among the warehouses in this city has been extinguished. Damage estimated at \$400,000. Damage by a Water Spout-Yellow Jack.

CITY OF MEXICO, Aug. 25.—Herald special.—An inundation of Guanajalo from water spout, has occurred, and a great deal of property has been destroyed and a number of lives were lost. A preliminary meeting of Congress takes place Sept. 1.

Yellow fever in still raging at Vera Cruz. Several cases are reported here. CHOLERA NOTES.

The Savannah, (Tenn.) News of the 19th, just to hand, says: There were several cases of the prevailing in town last week. The Troy Times of Aug. 22, says: There has been one case of cholera in town, and only one. Mrs. Prather was attacked by

aid of good physicians and good nurses, she survived, and a new out of danger and doing very well. The Union City Courier of Aug. 22,8avs: "There has been but one case of cholera in Union City since our last issue, that of Mrs. Sutherlin. There have been three deaths among the negroes from other causes. A few cases are yet reported as not fully recovered but all doing well." From the same column we clip as follows: "There is no cholera in Union City now not a case has occurred since last Monday. Our poysicians all agree that the scourge has gone, and all may return home at their
